Adel Abougoush Breaks Neck In Diving Mishap

LAC LA BICHE—Adel Abougoush, sixteen year old son of Mr. and Mrs. Albert Abougoush is in the University Hospital Edmonton following an accident at Waskisiw Beach Sunday afternoon, July 12. Several boys were diving from a raft a short distance from shore. Adel attempted to make a sailor's dive but the water proved to be too shallow and he struck the bottom, breaking his neck. Three companions, Gordon McCormick, Donald Michetti, and Gerard Langevin were able to pull the injured boy from the water and get him onto the raft and to shore. The unfortunate boy was rushed to hospital in Lac la Biche and later taken to Edmonton. Though his body is at present paralyzed he at no time lost consciousness and is able to talk and take nourishment.

Week End Fire Guts Summer Residence

LAC LA BICHE—Fire completely destroyed a cottage at Waskisiw Beach last Sunday afternoon. Friends of the owner, from Edmonton, were occupying the cottage at the time of the fire. The fire engine from town was called out but before it arrived a bucket brigade was formed and men and women worked feverishly to save the other nearly cottages.

Exact cause of the fire has not been determined but an authoritative source said that firecrackers may have been responsible for the conflagration which caused no little excitement among the hundred or so thronging the beach that afternoon.

FISHING ACCIDENT CLAIMS LIFE OF LLOYD GAGNON AT EGG LAKE

LAC LA BICHE—A fishing expedition in a new motor boat turned into a tragedy when a 16-year-old boy was drowned in Little Egg Lake. Lloyd Gagnon, eldest son of Mr. and Mrs. Ed Gagnon of Lac la Biche, lost his life when overcome by cramps while attempting to swim to his motor boat on the lake.

Lloyd, accompanied by two younger brothers, Bennie and Jerome, and Dennis and Joe Razzoli, also of Lac la Biche, set off in a motor boat the Gagnon family had purchased only a week earlier. Lloyd's fish line became entangled in the weeds, and in order to recover it Lloyd, the only one of the group who knew how to operate the motor, turned off the motor and dove into the water to free the hook. This accomplished, he started to swim toward the boat. He was known to be a strong swimmer, but the boat floated beyond his reach time and again. The boys in the boat urged him to swim to an island near by. The last words his companions heard from the lad were, "I think I can make it," before he sank beneath the surface.

The boys in the boat were unable to start the motor or paddle the boat to shore, so drifted helplessly until the boat grounded in shallow water near the shore some 45 minutes later. They rushed home for help but by the time the father and RCMP arrived there was no sign of Lloyd. Several hours later the body was recovered.

Lloyd Philip Gagnon was born April 7, 1943, in Lac la Biche and made his home with his parents on a farm two miles west of town until his untimely decease.

The funeral was held from St. Catherines Roman Catholic Church with Father Leverte conducting the service. Burial was in the Lac la Biche Cemetery.

Besides his sorrowing parents, he leaves to mourn his loss: three sisters, Emma, Mrs. Wilfred Perrier of Yorkton, Sask.; Noella and Jeanette at home; also two brothers, Bennie and Jerome, also at home

The sympathy of the community is extended to the bereaved family.

Boat Overturned, Occupants Rescued

LAC LA BICHE—Dr. William Cadzow accompanied by his eldest daughter Diane, Carol Courtney and Orville Franchuk, while enjoying a cruise in their motor boat on Lac la Biche, had the unpleasant experience of being swamped by a huge wave and tossed into the rough waters.

Being strong swimmers, they were all able to keep afloat until rescued a short time later by Gordon McCormick and David Sage. The boys, who were some distance from the motor boat, noticed it disappear and soon spotted four heads bobbing on the lake and came to the rescue. The mishap took place about a half mile out from Waskisiw Beach.

Town Council Lets Contracts For New Cement Sidewalks

LAC LA BICHE—At July meeting of Town Council resulted in the letting of a contract for the construction of 1555 feet of sidewalks. One stretch of concrete walk is to be laid on the north side of Saskatchewan Avenue from the end of the existing walk to the west boundary of the Town. Another section will complete the system of walks adjoining the elementary school, and a third section is to be laid on the North side of Block 9, from the legion corner to the hospital.

The remaining project will be a new structure of Plank construction to replace the worn out section north of the theatre. The contract was given to George Langevin, who expects to have a crew begin work at once.

Big Ones Pay Off In Cash At Beaver Lake

The fun of fishing for big ones at Beaver Lake, 3½ miles east of the town of Lac la Biche, is more than just in catching the big ones. You can make a bit of money, too.

Each weekend anglers chip in some silver, and the fellow who catches the largest fish takes all. Everyone seems to get a bang out of it, says Mrs. Irene Sampietro.

The largest fish caught at Beaver Lake weighed 13 lbs. 7 oz. this spring. Mr. Steffes of Morinville caught several nice pickerel last week as well as Mr. Dick of Edmonton.

The winner June 28 of the silver kitty was Henry Landry of Vegreville with a seven pound Pike. On July 5, Dale Lockhart of Edmonton and Norman Humphry of Lac la Biche each caught a 6½ pound Pike.

An Edmonton angler, whose name was missed, caught a 10 lb. 1 oz. Pike on July 12. The July kitty went to Pat Dick of 10121 114 St., Edmonton, who won with an 8 pound jack.

The contest adds a little color to excellent fishing offered at Beaver Lake where there are a few cabins and motor and row boats for rent, plenty of camping space and an inn where good food is offered by the hosts, Mr. and Mrs. Pete Sampietro.

FISH IN LAC LA BICHE and Spedden districts are much larger than this three-inch pike held by Randy Roberts, 2½. His first fish is still a big thrill to him, even though there's not much meat on it. Albertans interested in good fishing should read the big fish pages in this week's edition of Alberta Country Life.

THE Homemaker

By BERTHA M. McCUTCHEON

No one wants to be tied to an ironing board these hot summer days. There are much more pleasant and more interesting activities. Buy or make "Wash and wear" garments.

The term "wash and wear" means any article which is washable in the home and neat enough to be worn with little or no ironing. The garment should retain essential creases and pleats after repeated launderings.

There are three different types of fabrics which may be considered "wash and wear"—

1. Knitted goods such as knitted cotton and terry cloth.

2. Fabrics woven of a high percentage of Dacron or Terylene, which are identical, Acrilan, or Orlon.

3. Fabrics treated with chemicals, known as resin finishes.

Wash and wear performance depends on the quality and the intensity with which the finish is applied. Do not use chlorine bleaches on resin-finished fabrics.

Poor wash and wear performance in a garment may not be the fault of the fabric itself. Interfacing fabrics which pucker or sewing threads which shrink to a different degree from the fabric may be responsible.

Look for these construction details in wash and wear clothing.

1. Seams sewn securely with mercerized cotton, nylon, or dacron thread.

2. Flat seams should be loosely overcast in fabrics that fray readily.

3. Minimum of lining in jackets, of synthetic fibre where used.

4. Smoothly stitched buttonholes, no drawing of fabric.

5. A minimum of trim and frills.

There is little harmony in the home where parents are continually harping.

Joe P. Yurkiw Tells Of Trip To Europe

HYLO—News was received from from Mr. Joe P. Yurkiw, a teacher from Hylo, who is touring Italy in company with thirty other Alberta teachers.

They arrived in Rome from Genoa, on the afternoon of July 18 and were to leave the next day. They saw many points of interest in Rome.

VISIT ROME

The ancient walls of the city which are still standing, the Forum, the Coliseum, ancient temples, the tomb of Julius Caesar and other remains which have been excavated at the site of the old and ancient city of Rome, which date back to centuries before the birth of Christ. Here, they also saw St. Peter's church in the Vatican City and the museum which houses 3,000 rooms.

Among the many important things they saw were many famous paintings and interesting sculpture. In Genoa they had seen the house where Christopher Columbus lived.

ENGLISH SPOKEN IN ROME

More people spoke English in Rome than in Paris. On the whole the people appeared quite friendly. Almost every city of Europe this far had side-walk cafes, where people sit around sipping beer or wine. So far the weather had been very hot and the evenings were quite warm.

PRIMITIVE FARMING

Farming seemed to be quite poor in Italy. Crude methods are still in use, such as hay being transported by a two-wheeled cart pulled by oxen, and cattle were not numerous. However, the north-western part of France was quite rich in farming. The grain was thick and ripe and most of it was cut and stooked already.

Driving from Paris they saw large fields of grain being cut by combines. There were large fields of sugar beets. Of course the size of the farms was really small as compared to ours in Canada, but many cattle were seen anyway.

GO TO RIVIERA

By the way, in Paris, Mr. Nick Chodan got separated from the group and nearly lost the train by three minutes, which was going to Nice.

While on the French Riviera they went to see Monte Carlo, where Prince Rainier and Grace Kelly live. They saw the palace, then went to see the Casino and the well known gambling wheel of Monaco.

The trip so far has proved to be most enjoyable and enlightening and there are simply busses and busses of tourists coming and going. The ocean voyage was reported as being really wonderful too, as many types of entertainment were offered, for example, movies, dancing, table - tennis, shuffle - board, horseracing, bingo, reading, etc.

WENT TO ASSISSI

From Rome they were to go to Assissi, Florence and Venice. In Venice, Miss Victoria Torresan was to meet her uncle and aunt.

Mr. Yurkiw states that it is almost impossible to write about everything for there is so much to write. According to the time-table, Mr. Yurkiw should be back in Edmonton around the latter part of August and we will be hearing some more from him.

Lac la Biche Mission

A cabin at the beach belonging to Mr. Macdonald was destroyed by fire recently. They had the help of the Lac la Biche firemen.

Mr. and Mrs. McCarty of Edmonton have been spending their holidays in their cottage at the beach.

Mrs. W. Tremblay of Lac la Biche and her family are spending the summer at their cottage.

The road men have been working on the Sea Cadet road and covering it with gravel.

Mr. and Mrs. Noel Plamondon and family from Trail, B.C., were guests of Mrs. J. L. Tardif and district relatives and friends; while here they renewed acquaintances in Lac la Biche and Plamondon communities.

Mr. and Mrs. Paul Morin and their daughter Rita, accompanied by Mr. and Mrs. E. Boisvert, all from Ferland, Sask., visited their relatives Mrs. J. L. Tardiff and their uncle Alfred Beaudoin.

Mr. and Mrs. Edmond Tardif of Ferland, Sask., were home for their holidays. They visited relatives and friends and enjoyed boating and fishing.

Mrs. Coutney of Lac la Biche was a recent Sunday guest at the home of Mr. and Mrs. L. Bourget.

Andre Cloutier was very surprised when he caught a record-weight Jackfish with a hook. His brother Louis helped him take the fish from the water.

Mr. and Mrs. E. Tremblay of Boyle spent a weekend at the home of Mr. and Mrs. Marcel Tremblay.

Sympathy of the district is extended to the relatives of Louis Richard who passed away recently.

Several local families attended the funeral of Louis Richard.

Henri Beaudoin from Vimy spent a weekend visiting at the homes of Mrs. J. L. Tardif, Alfred Beaudoin and Mr. and Mrs. E. Tremblay; special guests were Mr. and Mrs. Roger Ladoucer.
